Retraction Note: Child and Adolescent Psychiatry and Mental Health (2023) 17:7

<https://doi.org/10.1186/s13034-022-00550-2>

The Editors-in-Chief have retracted this article because the authors have informed them that, after publication, they became aware that there were errors in some portions of the software database used for the analysis of statistical data. These errors have altered the major conclusions, including significant results presented in the text and tables. The authors have been invited to submit a new manuscript for peer review. All authors agree with this retraction.
